

QUALITY ASSURANCE & CONTROL SERVICES

For a client to be confident that a product they are purchasing or using (e.g. a valve, pipe, vessel etc.) meets not only their original expectations, but also any legislative obligations, an effective quality assurance and control program should be implemented that can monitor the quality of the product throughout its lifetime.

Inspecta International offers a comprehensive range of QA / QC services to provide our clients with that piece of mind and confidence that a product meets and in most cases exceeds their requirements, whilst performing as per the manufacturers specifications, and conforming to the statutory laws and guidelines.

We possess a highly qualified & certified team of QA/QC specialists (Civil, Coating, Mechanical, E & I) who are seconded to manufacturers and suppliers worldwide.

- *General QA / QC Services*

Inspecta International is able to establish QA Plans and Procedures that set the performance standards; methods for measuring, evaluating, auditing & reporting performance; as well as procedures for handling situations when performance deviates from the standard.

- *Third Party Vendor Inspection*

Inspecta International provides an extensive range of third party vendor inspection related services to engineering & procurement clients on a global basis - supplier assessments, inspection, expediting, *project personnel* outsourcing, destructive & non-destructive testing and coordination. This helps clients to reduce costs, whilst adhering to technical & commercial requirements. Furthermore the service controls the quality of workmanship from manufacturer as well as ensuring conformity to purchase specifications.

- *Total Quality Management (TQM)*

Inspecta International is able to offer a comprehensive TQM package to ensure quality is controlled through the life of a project, from raw material, through milling, shop fabrication, site construction to start up and commissioning.

Should you require further information regarding our QA / QC services, please contact Inspecta International by emailing technical@inspectagroup.org, or contact your local office who will be happy to answer any queries www.inspectagroup.org
